Space saving designs for your home

"Innovation Living™ is a Danish furniture company built on the proud Danish tradition of furniture design.

We believe that form and function must go hand in hand to create innovative, durable designs for everyday use.

We have dedicated ourselves to the design and development of multifunctional sofa beds, and today we are proud to be able to call Innovation Living™ an internationally renowned sofa bed specialist."

Durability is the most efficient sustainability factor

To make a positive difference we must all consume a little less. It means choosing products that will stand the wear and tear of everyday use, and with an aesthetic character that will stay attractive over time.

We constantly work to develop products that will honor the above requirements in such a way that recycled and reusable materials are considered and integrated when possible.

Lower CO_2 footprint

Since 1989, all our products have been designed for flat packing, which means minimizing CO_2 emissions during transport and storage. We continuously work to reduce the environmental impact of our activities, and you can read more about our specific initiatives on our website.
We are not CO_2 neutral, but we keep working hard to minimize our CO_2 footprint.

Maintain & refresh

Designing for flat packing means creating a set of parts that easily combine into a full product. The complexity and number of parts vary from product to product, but the design strategy allows for easy replacement of components to prolong product lifetime - whether it is to replace a worn-out part or refresh the look of the product.

Disassembly & recycling

In our design process we focus on the ability to disassemble the products and materials after ended life cycles. Which materials are used, how they are combined, and how they can be separated into individual parts and recycled. Each design creates a new challenge and some designs are more suitable for disassembly than others, but the ECO-dimension is always an integral part of our way of thinking.

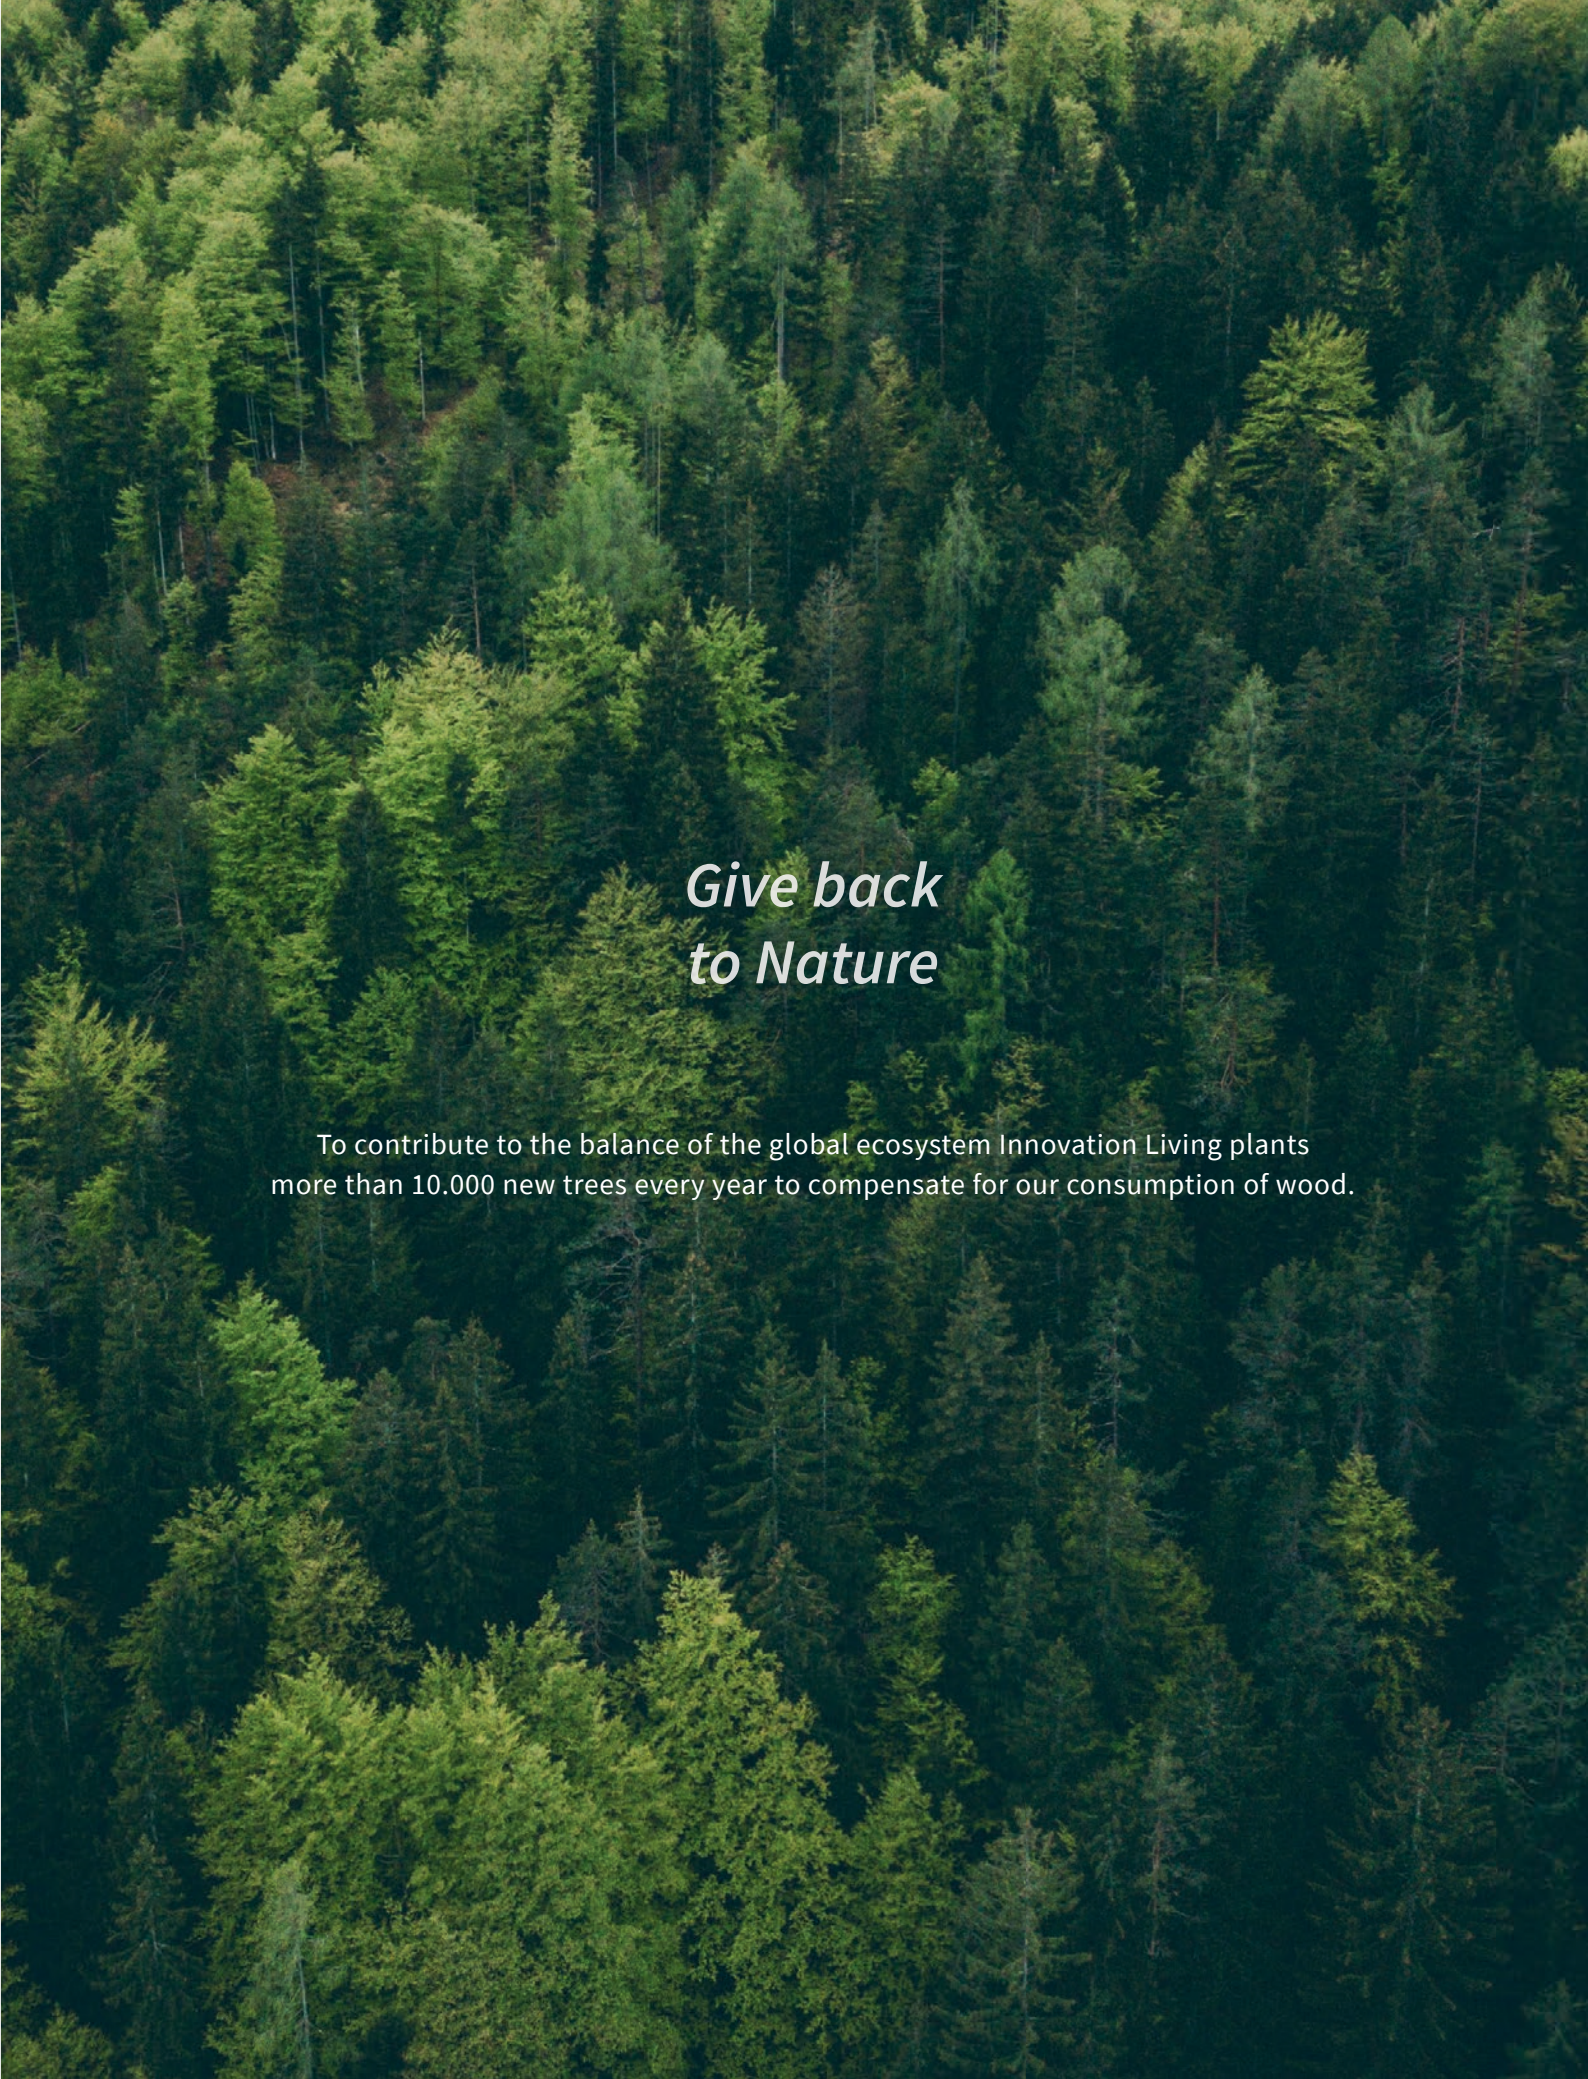
Durability | 5 years warranty

Quality and durability are at the center of our design and production process. We offer 5 years warranty on all designs and lifetime warranty on slats and gears on all sofa beds in the Multifunctionals category.

See further information about warranty on our website.

Certified production facilities

We engage in the development of local communities to contribute to a better tomorrow in the areas in which we are present. To ensure ongoing improvement, our production facilities are continuously audited to ensure third party confirmation that our group values and working conditions are followed. Amongst others by amfori BSCI Code of Conduct. See more about our standards and principles on our website.



Give back to Nature

To contribute to the balance of the global ecosystem Innovation Living plants more than 10.000 new trees every year to compensate for our consumption of wood.

Fabrics & Covers

The texture and colour of the fabric are important as they will interact with the product design to define the final character of the furniture. As preferences tend to change over time, our fabric collection is constantly adjusted to offer a variety of choices that reflect the spirit of the time.

Detachable covers

As it offers obvious benefits, a growing part of our collection comes with detachable and washable covers. The sofa is easy to maintain as covers can be machine washed at 30 degrees Celsius. Upholstery can be replaced if they are worn out, or if you want to freshen up your sofa. Instead of replacing the entire sofa, this will create a significantly smaller impact on the environment.

Products available with detachable covers:
Achillas, Conlix, Idun, Multifunctionals, Pascala, Puri, Trym & Yonata.

Look for this Icon:

Fabrics

As not all designs are suitable for removable covers, the durability of the fabric and ease of cleaning becomes crucial for the longevity of each design. All fabrics are highly durable and upgraded by adding backsides to strengthen them even further. All fabrics can withstand wash at 30 degrees Celsius, which means that products can withstand wet cleaning. Finally, most of our fabrics are OEKO-TEX Standard 100 certified which means they are free of harmful chemicals and substances.

Recycled fabrics

The supply of fabrics made from recycled fibers is fortunately constantly increasing. In our collection we are now able to offer two fine qualities made from recycled plastic bottles.

Please look for Vivus & Argus fabrics - see page 139

Splitback Frej & Splitback Eik

Design by Per Weiss, Oliver & Lukas WeissKrogh 2004, 2015

The Modular family will adapt to your immediate needs

“People tend to buy furniture, place them in their living room and leave them in the same position for the next 30 years” - said Verner Panton to me during our collaboration, after which he added. “Let’s develop furniture that will make the living room less static.” The modular concept is inspired by this dialogue.”

Yonata

Design by Emil Højfeldt & Per Weiss 2021

The minimalist lounge sofa

"Yonata is defined by its voluminous double sided comfort back, the generous comfortable seat, and the black signature legs in casted aluminium. Check out Yonata if you want a minimalist, informal and highly comfortable lounge sofa and bed."

Emil Højfeldt & Per Weiss

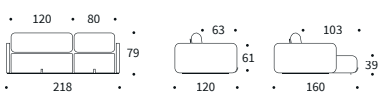
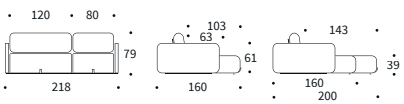
Vogan

Vogan Lounger





The adaptable sofa

"Vogan stems from the idea to create a design that will offer optimal comfort no matter what body type you may have. At the same time we wanted to create a product that can adapt to your instant comfort preference. Finally, we have integrated a table shelf into the sofa. Place a lamp, a vase, a stack of books and use it as a table for a glass of wine or a cup of coffee. Vogan is a multifunctional sofa designed for the living room, which also contains an extra bed for a guest."

Oliver & Lukas WeissKrogh

Multifunctionals | Design it Yourself

“Design your personal sofa by combining the elements according to your immediate preferences. Should they change over time, do not worry. Both styling and comfort can be renewed. In addition, we offer lifetime warranty on slats and gears on the entire category of Multifunctionals.”

Per Weiss

Balder

Top Mattresses

Top Mattresses

120 / 140 / 150 / 160 x 200 cm.
A 5 cm durable and reversible top mattress with a core of hyper soft foam that provides an even and supportive sleeping surface on all adjustable sofa beds. The cover is 100% polyester which is breathable, removable and machine-washable at 60 degrees Celsius.

The top mattress comes with a bag for storage when not in use. The bag helps minimise the volume of the topper for better storage.

Mattress Pads

80 / 90 / 120 / 140 / 150 / 160 x 200 cm.

A mattress pad provides a little extra cushioning and an added layer of protection for your mattress. They can be removed and machine-washed at 60 degree Celsius. The fabric is OEKO-TEX standard 100 certified.

Available for most mattresses.

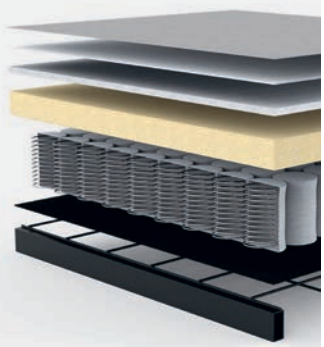
Pocket Spring

The individual pockets in these models ensure that pressure is applied to each individual spring for optimal support – in seating as well as sleeping position. The high resilient foam casing contributes to a breathable mattress while providing a soft top support.

The following models have this comfort:

Achillas, Conlix, Cosial, Eluma Deluxe Button, Ghia, Idun, Muito, Oldschool, Pascala, Recast Plus, Sigmund, Splitback, Sly, Sly Wood, Trym, Unfurl, Unfurl Lounger & Zeal.

Fabric
Fiberfill
High resilient foam
Pocket spring 6-12 cm
Fibertex
Metal mesh
Rigid metal frame



Pocket Spring Dual

The Pocket Spring Dual comfort share the general composition of the Pocket Spring models apart from the extra layer of hyper soft foam that gives these sofa beds an extra soft feel. This extra layer of luxury provides a soft seating and sleeping comfort.

The following models have this comfort:

Cornila, Dublexo, Frode, Malloy, Malloy Wood, Osvald & Tripi.

Fabric
Fiberfill
High resilient foam
Fiberfill

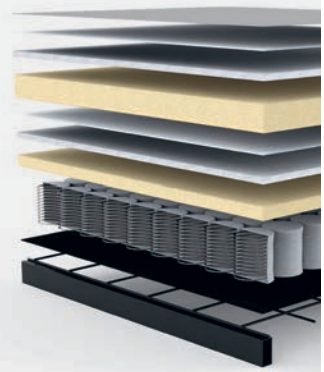
Pocket spring 10-12 cm
Fibertex
Metal mesh
Rigid metal frame



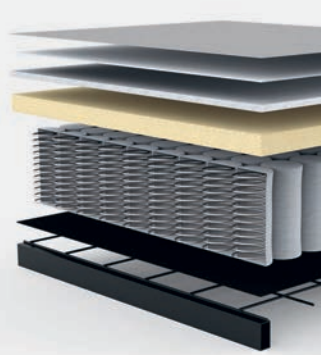
Excess Pocket Spring

The higher coils in the Excess Pocket Spring models provide a softer sofa comfort. In combination with the core foam casing, the Excess mattress has higher absorption of pressure on each spring for a more comfortable sleep.

The following models have this comfort:

Bifrost Deluxe Excess Lounger, Cassius Deluxe Excess Lounger, Long Horn Deluxe Excess Lounger, Pyxis, Supremax Deluxe Excess Lounger, Vogan, Vogan Lounger & Yonata.

Fabric
Fiberfill
High resilient foam
Pocket spring 16 cm
Fibertex
Metal mesh
Rigid metal frame



Sigmund

Pocket Spring mattresses ensure that pressure is applied to each spring separately. The result is a mattress that supports individual parts of your body better. The springs are surrounded by layers of high resilient foam providing a soft top support – whether for playing, sitting, or sleeping. Pocket Split mattresses consist of two separate mattresses that can be used separate or in combination.

The following model has this comfort:

Sigmund.
